

TAG HEUER CARRERA
CHRONOGRAPH 60TH ANNIVERSARY

A TRIBUTE TO JACK HEUER'S TIMELESS CREATION

60 years after the first TAG Heuer Carrera, the new Chronograph of the eponymous collection is here. The latest version brings back the classics that have defined the wristwatch chronograph for six decades and which made it worldwide recognised today.

KEY FEATURES

ICONIC

Classic, handsome profile, ultra-legible dial, and utterly dependable engineering. This model has been worn by legends of motor sports and stars of the silver screen, from the likes of James Hunt in the 1960s, to Mick Jagger in the 1970s, and on to Ryan Gosling today. It is an icon among icons.

DIAL

To pave the way for the year-long celebrations devoted to the Carrera's 60th Anniversary, TAG Heuer's design and engineering teams chose to return to one of the most collectible of all vintage Carreras, the reference 2447 SN of the late 1960s.

CASEBACK

Surrounding the dial is a 39mm polished steel case, topped by a raised profile 'glass box' in sapphire crystal, which, along with the vintage pushers, beige lume and slimline tension ring around the dial's outer edge, gives the watch much of its retro look.

BRACELET

The finishing touch is a perforated black calfskin leather racing strap with pin buckle.

SUPER-LUMINOVA®

The radioactive tritium on the original watch has been replaced with contemporary Super-LumiNova® on the new model.
