

TAG HEUER CARRERA
CHRONOGRAPH

The TAG Heuer Carrera Chronograph masterfully combines heritage and modernity. While retaining the iconic Dato vintage look, it has notable technical enhancements including improved ergonomics on the case, a gracefully curved flange, and a dial with circular brushed finishing.

KEY FEATURES

DESIGN

The timepiece boasts a domed sapphire Glassbox crystal. It is called "Glassbox" for its domed, curved, crystal glass, paying homage to similarly domed hesalite crystal designs from the 1970s. Reengineered to have a curve that flows seamlessly over the flange, it runs along the edge of the dial, blending into the case. This innovative design offers an easy reading of the indications on the dial via the front glass.

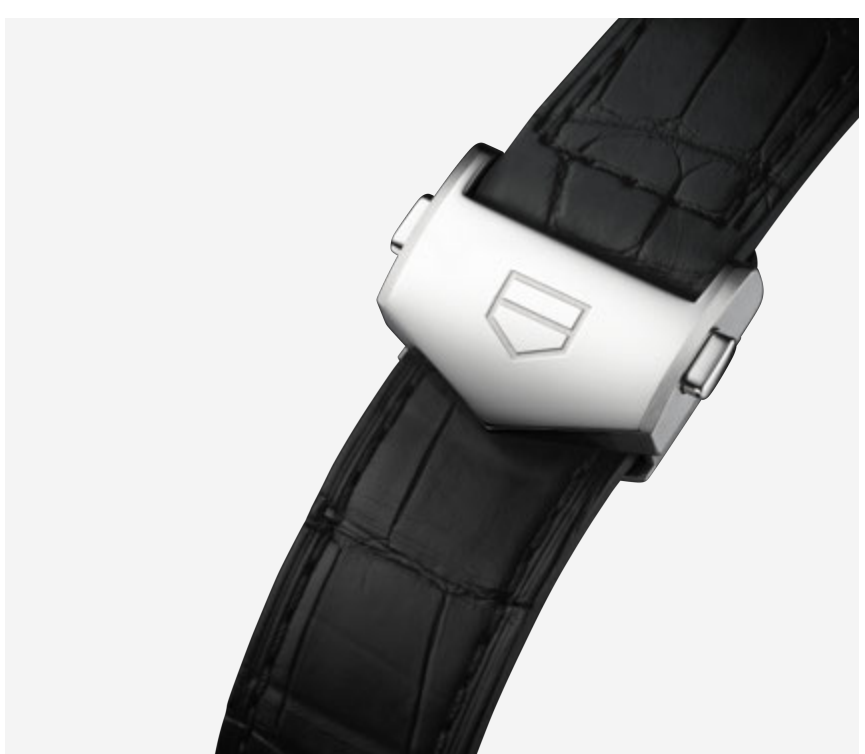

DIAL

The watch, crafted from steel, showcases rhodium-plated indexes and hands, complemented by a teal green azuré mono subdial at the three o'clock position.

MOVEMENT

The watch features an open caseback that showcases TAG Heuer's in-house movement Heuer 02 listed as TH20-07, with an impressive 80-hour power reserve. Additional refinements, like the bidirectional automatic winding mechanism, enrich this remarkable timepiece. Notable characteristics of the movement include a five-year extended warranty, demonstrating the brand's commitment to durability and reliability.

BRACELET

The TAG Heuer Carrera Chronograph comes on high-end black alligator leather strap adding a touch of luxury, with a stainless-steel folding clasp.

SUPER-LUMINOVA®

Rhodium-plated faceted polished hour and minute hands with Super-LumiNova® for optimum readability.

KEY FEATURES
