## **THE ULTIMATE DRIVER'S WATCH RETURNS**

The timeless design born in 1963 has taken on many celebrated expressions, yet the yellow gold pieces of this collection always stand apart. With its sophisticated deep black dial, the 2022 gold edition continues to build on this rich lineage of legendary racing timepieces.

# KEY FEATURES

## UNIQUE LEGACY

---

TAG Heuer continues to build on this unique legacy and introduces a never-seen-before dial design, black with golden gilded subdials, an inverted version of the famed Heuer reference 1158 CHN.

## DIAL

---

Contrasting against the deep black dial are two "azuré" and gilded gold chronograph subdials at 3 and 9 o'clock. At 6 o'clock a discreet permanent second indicator and date window complete the harmonious tricompax layout. The indexes and hands are plated in 18K 3N yellow gold and polished, enhancing the dial's legibility and elegance.

## CASEBACK

---

The case back features a sapphire crystal through which the movement and custom black oscillating mass are clearly visible. The TAG Heuer Carrera Chronograph is powered by the Calibre Heuer 02, the brand's in-house chronograph movement, with 80 hours of power reserve.

## BRACELET

---

The piece is presented on a large-scale black alligator strap with a gold pin buckle.

## SUPER-LUMINOVA®

---

The 18K 3N yellow gold-plated polished hour and minute hands are coated with white Super-LumiNova® for optimal readability.
