

**TAG HEUER CARRERA**

## SHADES OF GLORY

---

The refreshed TAG Heuer Carrera Date comes with a vibrant new dial color palette. One in deep TAG Heuer Carrera signature blue, a second in subtle, pastel green, and a third in warm silver. All three have a delicate sunray-brushed finish. A fourth iteration joins the lineup with a bright vibrant pink dial and an elegant snailed finish. This bold execution captures modern tastes for maverick dial colors that break free from the tradition dials.

# KEY FEATURES

## CASE

The TAG Heuer Carrera has always been a paramount example of original design and Swiss refinement. Now its hugely popular 36-mm version has a slender, sculptured new profile that, like Jack Heuer's 1963 original six decades ago, means it will live long in the memory.

## DIAL

The refreshed TAG Heuer Carrera Date comes with a vibrant new dial color palette. Each has a raised track running around the outside of the dial, detailed with quarter-of-a-second markings to symbolize acceleration, only made more casual and elegant with a tone-on-tone finish that complements the dials.

## MOVEMENT

The new models are all equipped with the Calibre 7 Automatic, which has a superior 56-hour power reserve. This enhanced movement also provides the watch with a date window at 6 o'clock.

## BRACELET

All four models have 36-mm stainless-steel cases and matching metal bracelets with classic folding clasps.

## SUPER-LUMINOVA®

A liberal application of Super-LumiNova® delivers low-light legibility.
