

# TAG HEUER CONNECTED

CALIBRE E4 - 42MM  
BLACK TITANIUM

## **DRESSED IN BLACK**

With its urban, sporty, and elegant all-black aesthetic, the TAG Heuer Connected Calibre E4 in matte black sandblasted DLC Grade 2 titanium has quickly become the most successful style of this collection. With the introduction of a smaller 42-mm size in 2022, joining the original 45 mm assortment, it was only natural that TAG Heuer would now also add a full-black option in this universally appreciated diameter.

# KEY FEATURES

---

## ULTRA-LIGHTWEIGHT

---

This timepiece exudes modernity, high performance, and style. The matte Grade 2 titanium case offers wearers an ultra-lightweight and highly resistant choice for their daily connected companion.

## DIAL

---

Its large 1.28" OLED screen is protected by a domed sapphire crystal, echoing the brand's mechanical watch excellence. Versatile digital or mechanical-inspired watch faces are available to download, as well as the NFT and image viewer dial, so the wearer can perfectly match their TAG Heuer Connected to their individual styles and needs.

## CASEBACK

---

The watch's case back is also made of black DLC Grade 2 titanium and houses the heart-rate sensor in its center.

## STRAP

---

Paired with a smooth black rubber interchangeable strap with a black titanium folding clasp, ideal for elegant daily wear as well as any sporting activity, it offers outstanding ergonomics, comfort, and refinement. The wearer can also choose from the many interchangeable strap designs sold separately.

## YOUR WATCH, YOUR STYLE

---

Versatile digital or mechanical-inspired watch faces are available to download, as well as the NFT and image viewer dial, so the wearer can perfectly match their TAG Heuer Connected to their individual styles and needs.

*Please note that some functionalities will be available later in 2023.*

With its signature chronograph-inspired design and a high-end digital experience with a wide range of watch faces and personalization options, the TAG Heuer Connected Calibre E4 42 mm confirms its pioneering and leading role in the luxury connected watch category.
