TAG HEUER CONNECTED

CALIBRE E4

PORSCHHE EDITION

CRAFTED TO FULFILL YOUR WISHES

The new TAG Heuer Connected Calibre E4 - Porsche Edition is a luxury connected timepiece inspired by the design of the iconic all-electric Porsche Taycan collection, with exclusive Wear OS features for Porsche owners where information from their car is displayed directly on the watch face.

The case is sandblasted black titanium, giving the watch a light, sporty feel and the black ceramic polished bezel has a dedicated scale going from zero to 400, referencing the Porsche car's speed, which can be used to read functions relating to the car or to display metrics like heart rate.

KEY FEATURES

PORSCHE

REFERENCE

SBR8A82.EB0264

WATCH EXPERIENCE

General and dedicated Porsche watch faces

Sports Watch App: Running, Cycling, Swimming, Fitness, and Golf Wellness

Other TAG Heuer branded micro apps: Stopwatch, Timer, Alarm

SIZE

45 mm

WATER RESISTANCE

50 meters

OPERATING SYSTEM

Wear2 by Google

STRAPS

Carbon like black calf skin, black rubber base strap

Black DLC titanium grade 2 folding clasp with double safety push-buttons

DIAL

Domed sapphire crystal

CASE

Black DLC titanium grade 2 sandblasted case

Black polished ceramic with frozen blue and grey lacquer details

The watch's strap is built to evoke the iconic design used in the interior of the Porsche cars. Designed in carbon-like black calf skin with blue stitching, it echoes the leather finishing inside the car in both color and structure. The watch's strap has a rubber base for a comfortable and sporty wear.

AN EXCLUSIVE WATCH FACE

The TAG Heuer Connected Calibre E4 - Porsche Edition watch comes with an exclusive watch face, 'Circuit', only available to owners of the watch. A Porsche watch face has been available for previous TAG Heuer Connected watches, and has proved hugely popular with customers.

The new 'Circuit' watch face is highlighted in frozen blue, with a design inspired both by electrical circuitry (in a nod to both the electric Taycan and the TAG Heuer Connected watch itself) and to racing circuits. Three chronograph-style complications can be used to display information from the watch directly on screen, such as step counter and heart rate, or information drawn directly from compatible Porsche models.

Compatible models include the Panamera (as of G2), 911 (as of 991.2), Cayenne (as of E2.2), Taycan (as of J1), Macan (as of Macan I), 718 (as of 982).
