

TAG HEUER FORMULA 1

CHRONOGRAPHS

DYNAMIC AND DARING

These statement quartz sports watches authentically capture the spirit of the first TAG Heuer Formula 1 pieces from the 1980s, which were celebrated for their cool colors and character. These traditional colors officially ruled the track until the 1970s, but they are still omnipresent today – flags, lights, track markings, team liveries, ... – they make up the enduring palette of this thrilling sport.

The 43-mm case is in fine-brushed stainless steel with pushbuttons at 2 and 4 o'clock and a strong black PVD steel fixed tachymeter-scale bezel with positive numerals.
