

TAG HEUER MONACO

SPECIAL EDITION

SQUARING THE CIRCLE SINCE 1969

Paying homage to the rare and mythical all-black Monaco of the 70s, this TAG Heuer Monaco Special Edition is a must have for connoisseurs. A fiercely elegant 39mm black DLC titanium case, houses the indomitable manufacture Calibre Heuer 02.

KEY FEATURES

CASE

The case is executed in Grade 2 titanium, coated with DLC (diamond-like carbon). Titanium is a high-performance material, offering a unique combination of strength and light weight, while remaining free of corrosion.

DIAL

The circle at the centre of the dial has a satin-brushed circular finish while the exterior of the dial offers a dramatic contrast, being sandblasted to create a grained finish. Defiant and rebellious, the black dial is contrasted by 18K 5N rose gold plated hands and indexes.

CASEBACK

A clear caseback reveals the manufactured Heuer 02 automatic movement, with daring rose gold plated touches on the oscillating weight to match the dial. An iconic illustration of masterful technicity.

BRACELET

This timepiece is mounted on a black alligator leather strap that is fitted with a black-coated titanium buckle.

SUPER-LUMINOVA®

The hands are treated with Super- LumiNova® which ensures optimum legibility in any conditions, day or night.

KEY FEATURES

REFERENCE
CBL2180.FC6497
